

Constructie Bruynooghe – Mechanical designer

Tasks

To grow our team, at Constructie Bruynooghe we are looking for a Mechanical Designer with a strong interest in machine safety and hygienic design.

- You design machines and installations in 3D, tailor-made for the customer.
- You design components (including piping, platforms, stairs and frames, etc.)
- You take account of applicable (international) standards, quality and safety regulations and customer requirements.
- You optimise machine designs for better operation.
- You follow up the realisation of your designs in the production department.
- You compile machine and CE files.
- You cooperate closely with the project manager.

Profile

- You hold a bachelor or master degree in (electro)mechanics.
- You are driven and creative.
- You think in terms of solutions and know how to set priorities.
- You can work both independently and in a team.
- Experience is a plus.

Offer

- Appropriate remuneration.
- Extra-legal benefits (meal vouchers €8, cell phone, etc.)
- Company car is part of the possibilities.
- 20 days leave + 6 days working time reduction.
- Flexible working hours with start between 7am and 9 am.
- Adequate training.
